A successful start has been made in the team championship series planned for this season by the newly organized Metropolitan Women's Golf Association and so far Arsdley has the lead of the twelve clubs in the organization. The team matches are quite apart from the championship to be played on June 11 to 15 on the links of the Morris County Golf Club, but they are pretty sure to increase the inthat and the women's national The tournament at Morris county, for which the entries close on Friday at the club with Miss Ruth Underhill, Secretary of the Metropolitan Association, is for individual honors, although there is to be an interclub foursomes on the last day. But, in the team matches, the good of the club counts above the individual performances, the season's trophy going to the club represented by the rinning team; but there will be single prizes for

The competitions under way will wind up on ly 17, when there will be a rest until Sept. 3, the week after the women's national championship. Then the contests will be resumed at Shinnecock Hills. Each team will play eleven matches, the final being scheduled for Nov. 6. It is the longest series of team matches ever arranged at golf in this or any other country. On this account there have been some sceptics among the men to say that some sceptics among the men to say that it would never be carried through with success, but, indefine by the spirited start, the schedule will be completed. The teams are evenly matched and it promises to be a very onen contest until the end. The original circuit was made untof eleven clubs, but since then the election of the Wee Burn club has made a new schedule necessary. The standing of the teams after the three matches played is:

Won. Lost.

Dowlton.

In the three matches played, Ardsley's team
as received an advantage of being on its
name links. One of the best points of these
soutests is that the general game of the players
will be im roved by the visits to the different contests is that the general game of the players will be in roved by the visits to the different golf course. Ardsley's chasms and high ascents, not to mention its pend hole, proved to be almost unplayable by the visitors last week, but the looking teams may get their revenge when they entertain the Ardsley women on their home links. The following is the sched-

A gelf clib has been formed at Long Beach, ersons wishing to join should send their names o A. E. Dick, 12 West Twenty-third street, or o John D. Dunn, 17 West Forty-second street, to John D Dunn, 17 Wast Forty-second street, New York. Harry Rawlins, the professional, will supernt-nd the work of getting the course in order. It will be constantly rolled, mowed and seeded until it is like a lawn. The putting green will all be returfed. The start and finish of the course this year will be at the opposite on will all be returfed. The start and finish of the course this year will be at the opposite end of the links and right up against the railway line, where the clubhouse will be built. A special car will run from the hotel to the links every half hour. John Dunn, who has been elected an honorary member and is on the Greens Committee, has designed bunkers like the noted ones abroad. There will be a "Hell" busker, like at St. Andrews: "Fandy," like at Musselburgh, and the "Redan," like at North Berwick.

The Oakland Golf Club announces that itsannual open tournament will be held on June 14, 15 and 16. The qualifying round will be at eighteen holes, with a gold medal for the best score. The first sixteen will keep on for the Oakland cup, the zift of John H. Taylor, and the second sixteen for a consolation cup presented by J. De C. Ireland. The Oakland Handleap cup, presented by Arthur W. Rossier, will be played for at eighteen holes on the latt day. Entries must be made on or before June 12 with the Secretary, M. M. Graham, 340 Third avenue, New York.

Cup. The scores were:

Paul Wilcox, 98; W. T. Cross, 106; Paul Kennaday, 102; C. H. Johnson, 131; P. L. Dyek, 132; J. W. Stephens, 124; C. T. Adams, 107; J. Bardsley, 112; J. Gaunt 118; Allan Kennaday, 98; J. D. Freeman, 107; L. Danlets, 113; S. Boulther, 130; C. D. Thompson, 131; Walter Brown, 110; F. M. Harrison, 114; S. Haywood Haerts, 194; Kick Brown, 119; A. B. Elliott, 112; John W. Stewart, 119; H. W. Thayer, 116; G. T. Riasell, 104; R. F. Russell, 114; Paul Harrison, 105; W. T. Churchill, 130; G. S. Brown, 134; W. E. Peck, 104; Percy Kennad y, 126; W. E. Gibson, 141; James Vaientine, 110; J. H. Caldwell, 113; C. J. Turner, 100; S. B. Flein, 126; H. W. Barelay, 119; H. C. Meyer, Jr. 122.

Boston, June 3 Sixty-six gelfers played over the Myopia Hunt Club course at Hamilton yesterday in an open bandicap match. In class A, a T. Meran of the Agawam Hunt Club won the net prize with a score of 84 and was tied with F. H. Smith of Wollaston for the gross prize, each going the rounds in 89 strokes. In class B, Dr William V. Appleton of Myopia handed in the best gross card, 111; net, 95.

PLAINFIELD, June 3.—In the opening contest for the President's cup at the Park Golf Club course yesterday afternoon only seven completed the eighteen holes owing to the heavy than ter shower. The competition for the cup will be continued every Saturday afternoon throughout the season and the player's scoring the three lowest net searce will receive credit for 3 points, 2 points and 1 roint respectively. The contestant making the highest number of points will win the cup. A competition similar to the above was started for the women at nine holes, for the Hooley cup. In the contest for o the above was started for the women at maioles, for the Hooley cup. In the contest f he tireens Committee challenge trophy F. Taylor, challenger, defeated the holder, W. R. Thiers, by 1 up, in eighteen holes. T scores follow:

Yale Trying to Strengthen Her Team.

New Haven, June 3.—Strenuous efforts were inaugurated to-night by the Yale baseball leadwhen the two teams meet on the Tigers' grounds better account of themselves. Cart. S. Camp has sent hurry calls for coachers and, Walter ("Dutch") Carter, 95, the leading college twirter of his day; E. L. Truden, 96, who succeeded Carter in the box, and ex-Capt. Harry M. Keator of the '97 team, who is head coach of the Columbia University nine, will all come up from New York to-morrow. In addition to this three more players have been taken to the training table to strengthen the nine. They are Catcher H.rsch, '01, of the second team; F. A. Robertson, '02, a substitute infielder and Ward, who played in right field during a part of yesterday's game. Robertson will replace Quinby at second base, as the latter's errors gave Princeton two runs. Hirsch will be ready to go behind the bat if anything happens to Cunha. Sullivan, who has been responsible for some of the worst playing ever seen on a Yale rine, has been dropped on request of the coachers and Ward will cover right field for the rest of the season.

ALLENTOWN, June 3.—The Atlantic League held a meeting in this city to-day and reconstructed the circuit by formally dispersing the structed the circuit by formally dispersing the Jersey City and Newark clubs, which were weak and mistanaged from the start, and which had much to do with the League's troubles. Allentown, Reading, Wilkes-Barre, Scranton, Elmira and the Athletics remain. The latter will be transferred to Harrisburg as soon as the grounds at the latter place can be put in shape. This will take ten days or two weeks. Two other teams will be added to the League as soon as desirable cities can be secured. The Athletics have been strengthened by the best players of the defunct Jersey City club. The League adopted a new schedule, which will go into effect to-morrow.

Manhattan Chess Club, was drawn on Saturday night after 103 moves, and Roething and Hal-pern therefore divided the second and third prizes in the tournament, which was won by Koehler. The final standing of the contestants follows:

terday, at Celtic Park, the O'Conneil team is qualified to meet the Kickshams in the final game for a cup offered by Sheriff Dunn. Yesterday's game was marked by fast playing on both sides, the final score being 12 to 2. The Young Irelands defeated the irish-Americans in the preliminary game, by a score of 7 to 2.

BASEBALL Records of the New York and Brooklyn Players.

Farrell did not retain the lead for batting honors in the Brooklyn club for any length of time, and as Kitson also lessened his average Capt. Kelley again shows in the van. Champions' team batting average is below the mark, but the men are doing well in the field.
Al Selbach of the New Yorks is the only player of the two local clubs whose average is over 400. Davis is hitting the ball hard enough to hold second place. The records of all games played to date follow:

Athletics at Elmira, Reading at Scranton. OTHER GAMES.

The New Yorks have not played an erroriess game this season. Keeler leads the Brooklyns and Doyle the New Yorks in stolen bases. Dahlen accepted thirty-eight chances in the last six games without an error. One or more base hits have been made by Selbach in thirty of the thirty three games.

The Monitor Baseball Club of West New York would be pleased to hear from teams from 16 to 17 years. Address A. Gallagher, 475 Eleventh arenue.

ST. LOUIS, June 3.—The National League games scheduled for Cincinnation June 16, 17, 18 and 19 have been transferred to this city, owing to the recent fire at the ball park at Cincinnati. philadelphia and St. Louis are the only teams which have not been shut out, while the Brooklyns have been whitewashed the most number of times by Chicago, Philadelphia and St. Louis.

The Spaidine Ligrary Union team would be pleased to hear from Rutherford F. C., South Orange F. C., Skellys, Emvires, Alerts, Howards, Hollywood Inn. and teams of like strength. Address P. P. Maginn, 34 West Sixieth Street.

The Montelair A. C. has the following open dates.

The Montelair A. C. has the following open dates for games with first class clubs: July 4, P. M., and 14, at home. Expenses required and given, or return games played. Address A. S. Williams, 113 Clairmont avenue, Montelair, N. J.

The Brooklyn A. C. Is booking games with all the leading semi-professional teams. They have Saturdays and Sundays in June open. A reasonable guarantee required. Address James Cotter, care Brooklyn A. C., 374 Bedford avenue, Brooklyn. The Nassau Baseball Club of Greenpoint has Sat-urdays in June, July and August open on the Nassau's grounds, and will offer suitable induce-ments to first class semi-professional teams. Ad-dress Joseph E. Reydel, 401 Graham avenue, Brook-ley.

The Hasbrouck Heights F. C. would like to arrange Saturday games with nearby clubs, uniformed. Have good grounds, but not enclosed. No guarantee offered but return games if wanted uniformed. Address William H. Roberts, Box 55, Hasbrouck Heights, N. J.

The National A. C. baseball team wishes to arrange games with first-class semi-professional teams in or out of town offering suitable guarantees. Will play on Saturdays, Sundays, Wednesdays and holidays, Address Arthur H. Jaggers, 207 Rutledge street, Brooklyn.

F. C. preferred. Address A. L. Freeze, 150 High street, Brooklyn.

The Bensoniurst F. C. wishes to arrange games for Saturdays in Sentember, also Labor Day, with amateur or seri-professional teams at Albany, Troy, Amsterdam, Kingston, Syraeuse, Utlea, Rome or Schenectady. Address P. R. Brown, manager, 200 Wyckfoff street, Brooklyn.

The Sloane Baseball Club have a few openy dates they would like to fill with first class teams for Saturdays in June, July and August, Allendale, Perth Amboy, Northport, Westwood and Hillsdale, Pertherred. Address James Kelley, care of W. & J. Sloane, Brondway and Nineteenth street.

The New York Post Office team have reorganized with a very strong nine and would be pleased to hear from teams within 100 miles of New York giving suitable guarantees. The Emeralds of Catholic Protectory and Suburbans preferred. Address N. T. Herbert, Branch E. New York city.

The Yonkers Y. M. C. A. team will play out of your groups for travelling a recovery carrier for travelling and travelling a recovery carrill meet recovery.

CAPE NOME RUSH LETS UP.

ABOUT TWO THOUSAND GOLD SEEK-ERS WILL GO NORTH THIS WEEK.

This Season-Total About 8,000 From Puge Sound Ports-Demand for Low Grade Iron Ores Drops-Events in the Mining States. ALASKA.

SEATTLE, May 28 .- The present week will witness the closing of the great rush to Cape Nome for this season, twenty-three steamers and thirty sailing vessels having departed from this port since April 15, when the schooner Gen. McPherson led the fleef out. Seven steamships are due to sail from Seattle within the coming week, and they will carry 2,000 passengers. There are 6,000 already on the sea. The steamers that have gone are announcing their second sailing dates from the middle to the last of June, anticipating but little trouble in unloading freight and passengers on the open roadstead at Nome, where knowing ones predict their trouble will only commence. There are no facilities for landing excepting by the lighters and surf boats carried by each vessel, and these will fare badly among the

While this Nome stampede has apparently overshadowed everything else here, there has been a ceaseless tide flowing into Alaska by other routes. There are regular steamers plying on the inner route by way of Linn Canal and Skagway, which sail daily from this port, frequently carrying 100 to 200 passengers. These steamers, besides being large passenger carriers also load heavily with freight, which consists mainly of provisions and mining machinery, the latter increasing very rapidly and denoting a large amount of mining development in southeastern Alaska and the Klondike. This inside trade with Alaska. while it has attracted but comparatively little attention, has been steadily increasing and is growing beyond the capacity of the present fleet of steamers. It is not only in the gold and copper mines that the country is rich, nor is it in the fisheries; coal and petroleum will soon be among the leading productions. Several companies supplied with considerable capital are now engaged in opening the coal; measures and petroleum fields.

SEATTLE, May 28.—The Manila mine in Keller district, Stevens county, which has been under bond to Spekane parties, will be taken hands. The consideration is \$75 000. The Little Joe, in the same district, has also changed hands at a similar price. New strikes are reported in several of the leading properties, particularly the Cuba, which is showing ore that runs as high as 60 per cent. copper besides good gold and silver values. Rich copper is being found in the Dewey and other properties.

On Kanaka Bay, San Juan Island, mining operations are being carried on, the minerals being copper, gold, silver and lead. The veins are of good width and the ores carry values from \$30\$ to \$40\$ per ton. The mines are directly on tidewater, where vessels can take the ores from the wharves and transport them to a smelter at less than \$1\$ a ton. The development is not sufficient to determine the extent of the deposits, but the location is very attractive.

In Republic district there is a healthy growth, twenty to thirty properties are under development.

There is more activity in Okanogan district than in any other section of the State, because On Kanaka Bay, San Juan Island, mining

twenty to thirty properties are under devel-opment.

There is more activity in Okanogan district than in any other section of the State, because Eastern capital is taking hold of partially de-veloped properties and going to the deep where there are developing room inters.

veloped properties and going to the deep where they are developing good mines.

San Francisco, June 3 — One hundred and twenty-six vesseis have sailed from San Francisco for Alaska since the opening of the season. Of these thirty-nine have sailed for Cape Nome, the first being the old missionary brig Pitcairn, which left in March. Thirteen sailed in March and twenty-three in May, and thus far in June two have departed for Nome. Eighty-seven vessels have sailed for other Aleskan ports, most of them being destined for canneries, codfishing or whaling. BRITISH COLUMBIA .

SEATTLE May 28.—In Trail Creek of which Rossland is the centre, it is now alleged that \$8 ore can be treated at a profit, whereas, three years ago the smelter charges exceeded that amount and no ore was shipped unless the values in gold, silver, copper and lead were in excess of \$20. This will swell the annual output of the district.

The ore production of Rossland during the past week was 4,030 tons, of which the greater contion was from the Le Roi. This mine has

past week was 4,330 tons, of which the greater portion was from the Le Rei. This mine has now attained a depth of 700 feet in its 6x22 foot shaft. It is the intention to sink to the 900-foot level. The output of the entire Trail district since Jan. 1 is 48,900 tons.

In the Royal mine on Texada Island an important strike was made during the past week, the ledge widening from 2 to 16 feet showing high-grade sulphurets. This property is embraced in the holdings of the Van Anda, and is located about two miles from the Van Anda smelter.

DENVER. June 1.—The New Mammoth Mining Company's shaft which was driven a few months ago has opened into a sulphide ore body that has been followed for 350 feet with indications that it extends a distance of 1,000 feet within the lines of the company's holdings. Other properties on the gold beit are unter the sulphide chute. The Penn property, after two years of good work and snipping over 50,000 tons of exide ores from a point less than 400 test deep geeded to go deeper and below 50.00 tons of exide ores from a point less than
400 reet deep, decided to go deeper and below
600 feet found the supplide formation. All
this supplide ore is rich in copper and gold.
The home Company is shipping 12,000 tons
monthly. The company has ore in sight to
keep up this amount of marketable ore for a
year to come without further development.
The Golden Eagle has declared a dividend of
one cent per share on a capital stock of \$500,000.
The earnings come from royalties.
The operators of the Pyranees are arranging
to do some heavy pumping to drain a heavy

The earnings come from royattes.

The operators of the Pyranees are arranging to do some heavy pumping to drain a heavy flow of water encountered just as the sulphide belt was discovered.

Leadville is now producing over ninety thousand tons of ore monthly and the average value of the ore is close to \$15 a ton.

The Yak tunnel, working three shifts, is now 8,400 feet long. It has cost to date over \$500.600. Several mining companies along this tunnel are arranging to operate through it, and the ultimate outlook for the enterprice is practically assured. Another great project for this year is the establishment of an electric power plant near Red Cliff, to furnish power for both Red Cliff and Leadville mines. All the smellers at Leadville are seeking to enlarge their capacities in order to meet the increasing demands by operators, and the tonnage of the camp promises to increase steadily.

The deep mines of the Central City district are making small headway against the heavy flow of water resulting from the snows of the past winter.

flow of water resulting from the shows of the past winter.

The new district on Sierra Blanca is promising great things for this season. The new town of Rossdale is growing rapidly and rienty of prospecting is now going on. The old iron mine of the Colorado Coal and Iron Company is now producing more gold than iron values. A ten-stamp mill is being set up to treat this ore.

ore is a line to a solution of the solution of the Black Hills Porcelain Clay and Marble Company has now acquired title to about 1.400 acres of mining ground in Custer county. It is divided into half a dozen different kinds of materials, all of which are to be developed by the company. The Black Hills marble is said to stand exposure better than the Eastern product.

product. MONTANA.

HELENA, May 27.—The Senate group of copper mines in the Moose Lake district has been sold to a French syndicate for \$250,000. The

MINING, MILLING, SMELTING AND CONCEN TRATING MACHINERY: CORLISS EN GINES: ESTIMATES FURNISHED. THE EDW. P. ALLIS CO., ROOM 1111, 26 CORTLANDT ST., AFTER MAY IST OUR ADDRESS WILL BE

sents a profit of over \$100,000 to Walkup, Collins & Burnett, who have had control less than a year.

The Old Joe mine, near Pony, has been sold to a syndicate of miners, who will operate it on the cooperative plan.

Butte City, Mon., June 3.—In the great mining suit between the Colusa-Parrott Mining and Smelting Company, owned by W. A. Clark, and the Anaconda Copper Mining Company Judge Knowles has handed down a decision in favor of the Anaconda company. The Colusa-Parrott Company was the plaintiff and the judgment declares that it failed to prove its case. The case involves several millions.

The controversy is over certain ore bodies claimed by both. The Colusa-Parrott mining claim lies south of the Anaconda claim, and the Anaconda company, it would appear from the findings of the Court, extended his workings into the Colusa-Parrott claim in following the controverted ore bodies. The Colusa-Parrott company claimed the ore bodies and brought the suit against the Anaconda company for damages. Judge Knowles decides that the stopes and workings of the Anaconda company for damages. Judge Knowles decides that the stopes and workings of the Anaconda company that were extended southward into the Colusa-Parrott claim are within the end planes of the Anaconda claim extended southward in their own direction and that the ore bodies in which those are located do not apex in the Colusa-Parrott claim.

Lake region inon Mines.

Colusa-Parrott claim.

LAKE REGION IBON MINES.

DULUTH, Minn., June 1.—Several exploring parties on the Menominee and Marquette ranges have stopped work because they found no ore of quality high enough to pay. The demand for low-grade ore seems to have dropped out of sight, and independent properties producing this class are preparing to close or reduce their output. In this manner quite a reduction in the output of the Lake region will be gradually effected. There is a sort of preliminary arrangement for restricting a production that looks larger now than it did a few months ago, and some of the large companies are retrenching in explorations and new properties in a quite marked way. There is still an active demand for mines that can be bought at prices that are considered reasonable. As a result the independent explorations, particularly on the Mesaba range, continue. Ore has been found in Section 15 and an option for the property has been given at \$60,000. Explorations are to commence as soon as drills can be had. These are as scarce as ever, and their lack is the one thing that delays new work.

The big cargo ships in the ore trade are carrying loads of nearly \$,000 tons this year. The largest load of the season was taken by the Gates the other day. It was 7,922 tons. This is not up to the record of last year, but there is a foot less water, and when it rises this foot the record-breaking cargoes of the year will be about 1,200,000 tons from Minnesota mines and as much more from Micnigan.

The American Steel and Wire Company that closed its Sauntry mine last week has reopened shipments with one shovel.

At the village of Michigamme, which up to a year ago had been deserted for a score of years, there are now five busy mines and 500 men in them. These forces are added to as as fast as room is found in the workings.

No Lake Superior ore is now being sold, the furnances having stocked up to part January. Prices on Bessemers are maintained at the furnances having stocked up to part January. Prices on Bessemers LAKE REGION IRON MINES.

cusly.

Eleven amalgamation tests at Little Bobs show an average of \$178 to the ton, and a lot of vein rock now at the sampling works is expected to go still higher.

ARIZONA. PEARCE, Ariz. May 28.—A new strike has been made in the No. 2 tunnel of the Black Diamond. The ore chute has widened from one foot until the winze is now entirely in ore, which is manganese oxide, with yellow sulphide of copper.

Saturday Night's Fights in Brooklyn. At the Greenwood A. C. on Saturday night the of Philadelphia and Billy Barrett of New York for twenty rounds at 122 pounds. Barrett was in good trim, and by doing a lot of feinting and forcing got the decision. Lenny should not have received worse than a draw, for he met Barrett's rushes with pre-cision and was fresh at the finish. Neither were marked to any extent. Eddle Dougherty was the The deep mines of the Central City district are making small headway against the heavy flow of water resulting from the shows of the past winter.

The new district on Sierra Blanca is promising great things for this season. The new town of Rossdale is growing rapidly and rienty of prospecting is now going on. The old iron mine of the Colorado Coal and Iron Company is now producing more gold than iron values. A ten-stamp mill is being set up to treat this office of the colorado Coal and Iron Company is now producing more gold than iron values. A ten-stamp mill is being set up to treat this office of the company of the original set all swamped, the milroads canot supply cars enough and indications point to a tremendous year for the district.

Creede is not shipping its usual amount of ore, but there is promise that before the senson is much further advanced the tomages will be back to its usual 300 tons per day.

SOUTH DAROTA.

DRADWOOD, May 29.—The Shawmut Gold Mining Company of Boston, Mass., has pirchased the block of mining ground owned by the Story Brothers which joins the company's Esmerelda mine on the west.

The Golden Gate Mining Company of Chicago has jurchased from the Northwestern Gold and Silver Extraction Company has now acquired title to about 1 aro and some preasured to heavy of the continue after the second round. The spearish Mining and Development Company, which purchased nearly four hundred acres of mining ground in the Ranged Top district, is preparing to rect a one-hundred doctor of mining ground in the Ranged Top district, is preparing to rect a one-hundred doctor of mining ground in the Ranged Top district, is preparing to rect a one-hundred doctor of mining ground in the Ranged Top district, is preparing to rect a one-hundred company has now acquired title to about 1 aro acres of mining ground in the nines. The Black Hills Porcelain Clay and Marble Company has now acquired title to about 1 aro acres of mining ground in the rect to sold the produce of the company of the company of the comp

WHEELING, June 3.—Oscar Gordner agrees to fight Terry McGovern at Kansas City the night after the Democratic Convention on July 4. Any terms suit Gardner. D. J. J., Paterson, N. J.—1. The pictures of the fight between Jim Jeffries and Bob Fitz-immons were fail ures and those now shown all over the country were taken after the mill. 2. Billy Needham and Jack McCormick.

ROWING

es of the Harlem Regatta-Several Rec

Except in a few instances Harlem River oars men got a respite from active training yesterday. The more sensational performances at the regatta on Saturday were the theme of general comment on the balconies and floats and many plans were made by beaten crews to reverse the order of finish in the National

A study of the record tables showed that the Vesper eight, in addition to defeating the best crews in the Metropolitan district, covered the one-mile course in the fastest time on record. This was 4 minutes 58 seconds. The best pre-vious figures were 5 minutes 1 second, by the

This was 4 minutes 58 seconds. The best previous figures were 5 minutes 1 second. by the Nonpareil B. C. junior eight in 1890. The first Bohemian senior eight won in 1894 in 4 minutes 53 seconds, but owing to a schooner being anchored at the beginning of the course, the distance was reduced, and the time is not accepted as the record.

The members of the Harlem R. C. were considerably upset by their defeats in the senior eights and senior doubles, but have by no means relinquished the hope of winning at the National in one or both of these events. Several causes are assigned for their defeat by the Vespers in the eight-oared events. The principal one is that the Harlems were forced to row in an oid paper shell that is down at the middle. The crew previous to the regatla rowed a trial over in 4 minutes 52 seconds, which is six seconds faster than the Vespers' winning time. The fact that Rumohr had rowed in three hard races and Nagle in one prior to the eight-oared event is also thought to have contributed to the defeat of the local crew.

The Harlems took the defeat of Romohr and Nagle by Juvenal and Hedley in the double even more to heart than the falling down of the eight. They predict a speedy reversal of the form. The poor showing made by the New Yorkers is traceable in a measure to the positions, as the local men were unfortunate in drawing the New York station. It is also thought that the Harlemites were not properly keyed up for two races within four days and that their brilliant victory over Juvenal and Hedley at Passaic on Memorial Day took the edge off their sculling.

The record for the intermediate four-oared gig crews was also smashed on Saturday by the Institute, who covered the mile in 5 minutes 32½ seconds against 5 minutes 33½ seconds made by the Vespers in 1808. The four crew of the Harlems also established new figures for the junior gig race of 5 minutes 33% seconds.

REAL ESTATE NEWS.

The formal records of transfers and mort-gages turnished the only items of exceptional nterest in realty circles last week. The sales announced at private contract were not especially noticeable. On the other hand, those persons who have been buying valuable property recently seem to have settled quite unanerty recently seem to have settled quite unanimously upon last week as the most desirable time to take title, the result being the transfer of all the pieces sold by the Roman Catholic Orphan Asylum through the Barney-Sheldon syndicate to the purchasers; the lots on East Seventy-third street sold through John N. Golding to Joseph Pulitzer, and of the Fifth Avenue Hotel and Madison Square Theatre property to the Fifth Avenue Hotel Land Company.

pany.

The latter transfer was of especial interest, for it brought out in a manner what is likely to become of that property, after present leases expire in 1993. Mr. Eno said on Saturday that the choice lay between a hotel building and an office building, with no decision as to either. Should an office building be put up the plans contemplate a particularly fine structure. The matter is rather far in the future just now, however, and when the time to build comes it will be easier to tell whether the hotel trade has moved along uptown or whether there would be a sufficient demand for offices to warrant the company to build. Not a few of the leading brokers of the city declare that the building of office structures is being overdone. This opinion is shared by brokers in the Madison Square neighborhood, as well as those located down town in the financial district. In the course of time there will doubtless be demand for all the rooms contemplated in the structures now in process of erection, but just now the demand is said to exceed the supply. The same views are held regarding the erection of apartment houses, and it is a fact that quarters may be secured well uptown at remarkably low prices.

The records of formal transfers and mortages also show, besides being of greater aggregate amount, a much larger number of transactions than usual. The following are the tables by districts, for Manhattan and The Bronx. 6 the convexances, mortages and projected buildings for the week ending June 2: The latter transfer was of especial interest.

CONVEYANCES. Totals..... MORTGAGES. . 78 \$1,055,255

......349 188 \$2,242,356 MORTGAGES.
